

Workers' Compensation Services

Retrospective Rating Program

Since 2007, Archbright™ (formerly Washington Employers) has consistently delivered excellent claims management and has become our trusted go to solution for all of our members' workers' compensation services.

Archbright's approach is simple: prevent injuries before they happen through proven safety programs, actively manage every claim to get the injured employee back to work, and guide our members in managing the human side of safety by driving employee engagement.

Why Join the TCCC Retro Program?

- We specialize in managing the whole situation, not just the claim
- We have the most credentialed retro claims management team in Washington
- Our claims team consistently delivers refunds to all groups it manages
- Our claims team has recovered over \$2.4M for group members through L&I's Stay-At-Work Program

Do you participate in a Group Retrospective Program?

Are you earning as big of an L&I refund as you could be? Let's find out.

Contact us to fill out an authorization form today.

Are you ready for Retro? Let us help you find out!

Claims Management

Other providers simply monitor claims and require you to contact them with any actions or notices from L&I. We do things differently. Your claims manager actively manages every claim, from beginning to end, for you.

- You can reach our experienced claims managers at any time
- We review all orders for accuracy and, if necessary, will protest or appeal on your behalf
- We respond to all L&I correspondence within 24 hours
- Direct communication with the attending physician and L&I

Safety

Our Total Account Management strategy combines preventive safety programs, effective claims management, and improved employee engagement — resulting in fewer injuries and increased productivity.

- On Call Safety Advice
- L&I Citation Review
- Cloud-based Risk Management Center
- Safety meeting ideas that are produced monthly in English and Spanish to help keep you in compliance with safety standards
- Access to monthly Safety webinars which provide your team with training, compliance updates, and downloadable material for each session.

Already participate in a Group Retrospective program?

We'd be happy to compare your current results to see if our program can earn you a greater refund.

Visit our website to fill out an authorization form today.
